

Washington State Community Health Centers

1,203,101 Total Patients
350+ Delivery Sites

Washington State Community Health Centers (CHCs) are local, nonprofit, community-driven, and patient-centered health care organizations. They provide comprehensive and cost-effective care options for the most underserved communities in Washington State. CHCs have decades of experience providing essential services efficiently.

Patients by Insurance Status

Experienced

Nearly **51** years of delivering quality primary care tailored to the needs of underserved populations.

11,161 (FTE) staff provide primary care services, preventive services, and wraparound services. CHCs ensure that their care is culturally appropriate, in part by employing bi- or multilingual staff.

Patients represent a majority of members on CHC boards. This ensures that care is responsive to patients' needs.

Essential

CHC's have seen a **65.20% increase** in the number of total patients since 2010.

CHC's connect patients to a health care home, which reduces health care disparities.

Efficient

Nationwide, CHCs save **\$1,263** in Medicaid dollars per patient per year.

CHC's Patients Include:

126,158 Migrants / Seasonal Farmworkers

26,556 Veterans

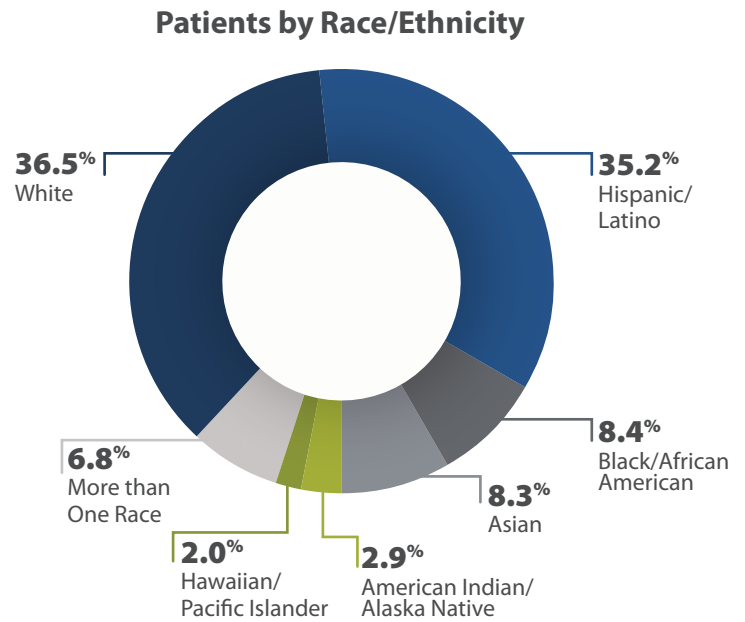

124,848 Homeless Patients

445,899 Dental Patients

Who We Serve

CHCs serve all patients, regardless of their ability to pay.
