

24,731 Total Patients

Valley View Health Center (VVHC) is a local, nonprofit, community-driven, and patient-centered health care organization. It provides comprehensive and cost-effective care options for the most underserved communities in Lewis, Pacific, and Thurston counties and surrounding areas. VVHC has 17 years of experience providing essential services efficiently.

Patients by Insurance Status

Experienced

17 years of delivering quality primary care tailored to the needs of underserved populations.

183 (FTE) staff provide primary care services, preventive services, and wraparound services. VVHC ensures that its care is culturally appropriate, in part by employing bi- or multilingual staff.

Patients represent a majority of members on the VVHC Board. This ensures that care is responsive to patients' needs.

Essential

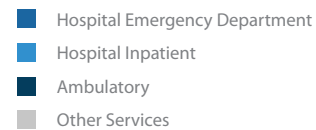

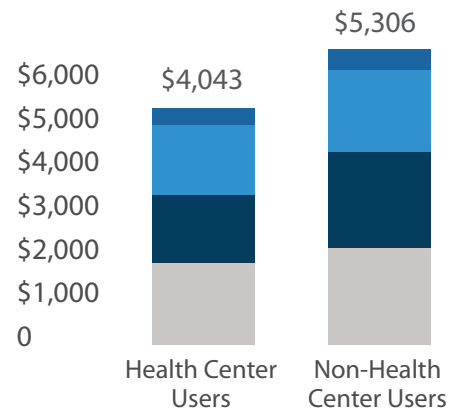

VVHC has seen a **34.26% increase** in the number of total patients in the last 10 years.

VVHC connects patients to a health care home, which reduces health care disparities.

VVHC improves the health and well-being of the community by providing quality and compassionate health care services in a patient-centered atmosphere, respecting individual and cultural diversity.

Efficient

Nationwide, CHCs save \$1,263 in Medicaid dollars per patient per year.
